Hersteller: NEXTIME

Produktbeschreibung

This NeXtime "William" wall clock is designed with stunning moving gears. The style and the size of it (50 cm) makes this clock a real centerpiece. The black colour roman index (printed on the glass lens) and the same colour hands give a clear contrast with the off white colour dial behind that makes it very easy to read time from a distance. The moving gears are separately controlled from the clock and can be easily switched off. This clock runs on 3x AA battery (not included).

- Material: Metal, glass
- Color: White / black
- Clock type: Wall clock
- Size: Ø 50 cm
- Battery type: 3x AA battery, not included
