📄 Produktbeschreibung

This NeXtime "Henry" wall clock (50 cm) has real moving gears so you can see, literally, how time passes by. This stylish industrial wall clock is large and bold, makes it a perfect piece of art for your wall. The worn black colour case, white hands and classic white Arabic index (printed on glass lens), gives a high contrast to the black dial behind and makes it easy to read time. The moving gears are separately controlled from the clock and can be easily switched off. This clock runs on 3x AA battery (not included).

- Material: Metal, glass
- Color: Black / white
- Clock type: Wall clock
- Size: Ø 50 cm
- Battery type: 3x AA battery, not included
