### Product Description

M.W. Reutter - "Onion Gold" Bowl Set For over 60 years, Reutter has been producing its large porcelain collection itself. In porcelain miniatures, they are the only ones in Germany. The attention belongs entirely to the detail. Up to 17 times during the manufacturing process, the porcelain articles are taken in hand, cast, glazed, painted and fired for the third time until they radiate their typical flair. This craftsmanship has brought Reutter miniatures friends all over the world.
