Product Description

Mini Advent calendar "Jena"

Jena, the city of science, is still today characterized by the work of the entrepreneur Carl Zeiss. The industry of optics and precision mechanics is at home in Jena on Saale in Thuringia. This Mini Advent calendar shows Jena from a completely different side. The Christmas hustle and bustle at the town museum Jena attunes us to the Advent season. Every day a little window behind which Christmas pictures are hidden, can be opened. This awakes memories of childhood and warms the hearts.
