Product Description

Mini advent calendar "Rothenburg"

This mini advent calendar in greeting card format from the tranquil town of Rothenburg ob der Tauber is a must-send to all of your friends. Rothenburg ob der Tauber is a well preserved medieval town with a 4 km long, completely preserved city wall. Two kilometers of the medieval city wall are still accessible and roofed today.

40 different towers and gates are integrated into the city wall, such as the Klingentor gate, the Castle Gate and the Galgentor gate. The Markus Tower with the Röder Arch and its magnificent bourgeois houses is probably the most popular motif for photographers and painters.
