Product Description

Mini Advent calendar "Würzburg Old Main Bridge"

The view from the left bank of the Main over the "Old Main Bridge" to the historic old town of Würzburg is truly imposing. If you cross the river the 1300-year-old city of Würzburg opens up with all its historic monuments and sights such as St. Kilian's Cathedral, the Civic Hospital of the Holy Spirit, the Falkenhaus, the Alte Kranen, the Julius Maximilian University and the Würzburg Residence. The Würzburg Residence was declared a UNESCO World Heritage Site in 1981 together with the Hofgarten. The imposing structure of the Old MThe Würzburg Residence was declared a UNESCO World Heritage Site in 1981 together with the Hofgarten.

The fortress Marienberg towers over the left bank of the Main and next to it is the "Käppele". The Käppele is probably the most famous Baroque pilgrimage church in Bavaria, built by Baltasar Neumann. Wilhelm Conrad Röntgen was a citizen of the city of Würzburg and his original laboratory can still be admired here today. Advent greetings can be sent with our Advent calendar in form of a greeting card. Family, friends and business partners will enjoy opening the little windows throughout the Advent season. There are festive and regional motifs behind the windows.
