Product Description

Table Top Lantern "Erzgebirge workshop"

Our table lantern made of parchment with the motif of the Erzgebirge workshop is a beautiful table decoration during the Christmas season. The tradition of Erzgebirge folk art is closely linked to Christmas. The view into the carving workshop shows a tire turner at work. The craft of the tire turner was developed in the Erzgebirge around 1800, to make the carvers' work easier and faster to produce. A piece of wood is processed in a wood lathe so that a wooden tire is created with the profile of the required figure. With these figures in the form of animals, houses, etc. Christmas pyramids are completed and beautiful little wooden toys are created.

Now put a glass with a tea candle into the lantern and let the Erzgebirge workshop shine on your table. Our lantern is also a wonderful Advent greeting to friends and acquaintances or to business partners, because a folding card with the same motif is included.

- Contents: Folding card with envelope and parchment lantern
- Format: Lantern 11 x 15.5 cm, folding card 11.5 x 17 cm
- Artist: Tina Hopperdietzel
