Product Description

Gold bowls, miniature

This enchanting bowl set consists of two porcelain bowls in "Dresden Rose" design, which are lacquered golden on the inside.

Reutter have been producing their large porcelain collection themselves for over 60 years. Their porcelain miniatures are the only ones in Germany.

The attention belongs entirely to detail. Up to 17 times the porcelain articles are taken into the hand during production; they are casted, glazed, painted and fired for three times until they have their typical Reutter flair. This craftsmanship has brought them friends all over the world.

Reutter are constantly working on completing and perfecting their collection of miniatures. They succeed in inspiring collectors from all over the world.
