Product Description

Advent calendar - Living room

The Advent calendar in large format with the Victorian motif "Living room" shows a very classic Victorian picture. The family gets together during the Christmas season, people sing together, play together, laugh together. All this is depicted in a very colourful and expressive way in the Advent calendar and is also reflected in the motifs behind the 24 doors. The motifs behind the doors fit perfectly into the overall picture. Sometimes an object is added to the table, sometimes another guest, sometimes another toy. But what is in the large living room cupboard of the Advent calendar will only be revealed on Christmas Eve.
