Product Description

Tomate/Mozzarella

Let us introduce you to our wonderful world of miniatures. We have put together many small arrangements which are suitable for every occasion. For example this appetizing tomato and mozzarella salad with bread and olive oil.

Skilled workmanship and attention to detail give our miniatures that special Reutter look. Most of our porcelain pieces are handpainted with 24k gold and fired at 800°C (1470°F). Our tiny masterpieces fascinate people all over the world and stimulate a passion for collecting. All Reutter miniatures are carefully made by hand with the greatest care.

Synthetic resins are used to model particularly fine and filigree articles in order to achieve the highest possible level of detail.

Our little creations are the perfect addition to your dollhouse, miniature scene or classic setting. As all miniatures can be easily removed from the packaging, they can be used to fit into any of your creative displays.
