from **37,24 EUR**

Item no.: 331434
shipping weight: 0.20 kg
Manufacturer: Reutter Miniaturen

Product Description

Picnic basket

Let us introduce you to our wonderful world of miniatures. We have put together many small arrangements which are suitable for every occasion. This picnic basket, for example, contains finely crafted porcelain, sweet and savoury treats of all kinds and a picnic blanket.

Our furniture and accessories are crafted in scale 1:12 and fit perfectly in every doll house or miniature setting in that scale. Skilled workmanship and attention to detail give our miniatures that special Reutter look. All our gold decorated porcelain pieces are hand painted in 24k gold and fired in a kiln up to three times at 800°C (1470°F). Reutter often uses brass or gold-plated and silver-plated miniature articles, each of which has its own metal mould. Synthetic resins are used to model particularly fine and filigree articles in order to achieve the greatest possible detail. Our miniature masterpieces fascinate people all over the world and stimulate a passion for collecting.

Everything from Reutter Porzellan is decorated with love to detail and carefully made by hand, so for sure you will get your own little unique own. Our miniature products are not suitable for children under 14 years old. Dimensions refer to the cabinet without decoration.

- Weight: 111 g
- Width: 5,5 cm
