Product Description

Display "Living Room"

In this living room you can feel truly comfortable!

The new, comfortable sofa invites you to relax, a reading corner with a view "into the city" brings variety and the wall decoration with various wall plates, beer mugs, clocks and sculptures transforms the room into a detailed and deceptively real living room. The finishing touches are provided by the equally handmade flowers and just look - the dog has come to play too.

There is now a new size for the miniature displays! The newly developed Series 820 rooms are twice as wide as the Series 801, with the special feature of large, usable wall and floor surfaces (over 8 cm deep) on which 1:12 furniture can easily fit. Thus detailed rooms can be designed.

The Displays are built of stained willow or birch and decorated with stucco elements. With real glass panes there is also no need to worry about scratches or blind spots and they protect the miniatures from dust. For access the panes can be removed upwards. Individual pieces are fixed so they cant fall out. All miniature rooms can be propped or hung up. Skilled workmanship and love of detail gives our miniatures their own special Reutters look. All our gold decorated porcelain pieces are hand painted in 24k and fired in a kiln up to three times at 800°C (1470°F). Our miniature masterpieces fascinate people all over the world and awaken an undiscovered passion for collecting.

All miniatures with strict attention to detail and love, so that you can have your own unique copy at home. Your original may vary slightly from the picture.

Our miniature products are not suitable for children under 14 years old.

- Weight: 775 g
- Width: 30,5 cm
- Length: 8,5 cm
- Height: 20 cm
