Product Description

Multi wall hook, gray

The multi-hook is an elegant yet functional wall coat rack that offers you enough hanging space in practically every area of your house, office or dormitory. This versatile and decorative coat hook offers space for all your hanging needs such as coats, scarves, handbags, bathrobes, towels and more. The ingenious design of sticks makes it look like a modern work of art at first glance, until you unfold its foldable hooks, which can be folded up when not in use and thus result in a clear, harmonious image, which is ideal for narrow spaces or minimalist decorative styles.

Each folding hook holds an amazing 2.27 kg (5 lbs) load per hook, making it a powerful helper for better organizing your home. This cloakroom made of molded wood, available in different designs, is equipped with 5-way folding hooks and is supplied with fastening parts that make it extremely easy and quick to attach. The hidden fasteners give this modern wardrobe a seamless, floating look.
