Product Description

Miniadvent calendar "Linz"

Our Advent calendar shows the main square of Linz, which has been one of the largest converted squares in Europe since the 13th century. In its centre stands the 20-metre-high Trinity Column, built in 1723. The Linzer Torte, which of course comes out of one of the 24 windows, is said to be the oldest known cake recipe in the world. Linz is situated on the Danube and was chosen as the Capital of Culture in 2009 together with Vilnius.

The former industrial city of Linz now has a lot to offer in the way of culture. Linz is making a name for itself above all in modern culture. The Brucknerhaus was built in 1974 as a concert and event venue. The Brucknerfest and many other art and cultural events were created with it.

- Contents: Folded card with envelope
- Size: 11,5 x 17,0 cm
- Title: Linz
- Artist: Andrea Heinze
