Product Description

Christmas Postcard Erfurt Dom

Erfurt is the state capital of Thuringia. The Erfurt Cathedral St. Marien together with the church St. Severinkirche form the landmark of the medieval city of Erfurt. The largest free-swinging medieval bell in the world with the sonorous name "Gloriosa" rings in the tower of St. Mary's Cathedral. The city of Erfurt is considered the largest heritage area in Germany. On the cathedral square at the foot of the Erfurt Cathedral there is one of the most beautiful Christmas markets in Germany. The city located in the center of Germany attracts thousands of tourists in all seasons.
