Product Description

JUNIP oval soap holder, black

The Umbra Junip bathroom soap holder is oval soap holder made of synthetic resin for washstand or kitchen worktop in black.

A modern soap dish for the bathroom, part of the Junip collection, one of our two apothecary-inspired collaborations with Gensler, the world's leading collaborative design firm. The pieces in the Junip collection have the weighted look and feel of traditional apothecary bottles, but with modern lines and finishes. Junip features warm and inviting rounded lines, chrome accents and an eye-catching matte finish. The pieces in the Junip collection are refined, yet comfortably casual, with shapes and proportions that aren't perfectly matched, but rather coordinated to be complementary.

This collection also includes trash can (334896), soap dispenser (334883), toothbrush holder (334888), phone holder (335562) and bath tumbler (334891). In addition, the Touch collection is available in various classic and trendy colors, such as black, white, transparent, metallic and Terazzo-gray.

Umbra is an internationally operating design company known for original, modern, cool, functional and affordable products for home & living.

- A resin soap dish with rounded lines and a matte finish that feels like a smooth pebble to the touch.
- Raised ribs on the surface of the dish add a graphic detail, but also lift the soap off the dish so it can dry neatly, last longer, and not stick to the dish.
- While many of the details and finishes are identical, each item in the Junip bathroom collection differs in its individual design features; shapes are carefully matched but not identical.
- Designer: Collaborative Design
- Material: resin
- Weight: 200 g
- Colour: black
- Dimensions: 14 cm x 9 cm x 3 cm
