Product Description

JUNIP soap pump, chrome/black

The Umbra Junip soap dispenser is a modern dispenser for liquid soap and foam soap made of polyresin with 0.3 litre capacity, in the colours black and stainless steel.

A modern soap dispenser made of high-quality polyresin is part of a large bathroom accessory line. This soap dispenser and the other parts of the Junip bathroom accessory line are inspired by old pharmacy bottles. All containers have a beautiful dead weight with round lines and a slightly matt finish that feels like a soft stone.

All accessories in this collection are beautifully coordinated. The finish and lines are identical for all accessories, only in different proportions, which makes the collection so chic and relaxed.

This collection also includes trash can (334896), oval soap holder (334878), toothbrush holder (334888), phone holder (335562) and bath tumbler (334891). In addition, the Touch collection is available in various classic and trendy colors, such as black, white, transparent, metallic and Terazzo-gray.

Bring new and refreshing chic to your bathroom accessories and order the Junip soap dispenser today.

Umbra is an internationally operating design company known for original, modern, cool, functional and affordable products for home & living.
