Product Description

MAGINO stool with integrated magazine rack, transparent

MAGINO is an acrylic stool with integrated newspaper stand which can also be used as a side table.

Magino's acrylic material is eye-catching and unexpected in a room, without being loud and obtrusive because it is clear, and not a large piece of furniture. It functions as a stool, side table and a magazine rack, without taking up tons of space. The acrylic is thick at 1/2-inch (13mm), lending to Magino's graphic lines and durability (this piece is shatter-proof). Umbra is an internationally operating design company known for original, modern, cool, functional and affordable products for home & living.

- Designer: Karim Rashid
