Product Description

CHROMA TENS Curtain Rod, 137-229 cm, matte black

This contemporary take on a household classic offers an effortless, yet functional and modern way to hang your drapery, curtains and sheers. The 2 cm diameter metal rod features a sleek design that will complement multiple decors. A sturdy spring inside the rod creates strong tension that holds the rod securely on the inside of any window opening. Simply extend the rod to fit tight from end to end within the window frame, and twist the rod into place, activating the sturdy, durable coil spring. Chroma requires no hardware or drilling and takes just minutes to set up, making it great for spaces where you can't drill holes in the wall. Use Chroma along with light to medium-weight curtains to block out light while adding a modern, functional touch to your bedroom, living room, dining room, office space or studio. The high-quality metal rod will support light to medium-weight curtains with a maximum weight of 6.5 kg. Chroma is available in multiple sizes to fit a variety of window sizes.
