shipping weight: 0.10 kg

Manufacturer: Crottendorfer Räucherkerzen GmbH

### Product Description

Incense cones - Santali tin can

Various incense from the "Santali" series - classic, Arabic and oriental fragrances for people who love the exotic. 4 different fragrances in an attractive tin can:

- Opium: When the match glows and the black cone glows red, you are immediately in the middle of Morocco, which is dark and beguiling like Scheherazade, caressing your senses. Imagine the landscapes of the Orient with the opium scent and find peace and relaxation.
- Oriental: This fragrance is dominated by the oriental note of the Orient: Moroccan mint tea, saffron, olive soaps in endless bazaars. A potpourri of rose oil, cardamom, pepper and Tahitian vanilla invite you to explore the Orient in a sensual way. Past frankincense trees and tropical gardens with palm trees.
- Patchouli: Once ignited, the mysterious, erotic effect of the alluring patchouli evaporates very slowly from the room. A woody-tart, slightly sweet scent accent, which is flattered by subtle accords of exquisite Siam Benzoin, gives you a taste of East India: earthy with a slightly smoky tone.
- Pepper citrus: Stroll through a colorful bazaar in Baghdad and dip your hand deep into a vessel filled with colorful peppercorns as you go. Smell the intense spicy scent that invigorates the senses, wafted by a fresh breeze of Indian lemon that awakens all spirits and lets them open

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the censer on a temperature-insensitive surface.

- Can content: 60 pieces
- Size: M
- 4 different fragrances in an attractive tin can: Opium, Oriental, Patchuli, Pepper and Citrus
