Product Description

The delicate LIFT tealight holder is almost high-tech. Two magnets embedded in the walnut wood hold the maxi light securely in the desired position and at the same time make it easy to adjust the height by hand. Or even bring it up for lighting or extinguishing. In an ensemble of two or three, the glass cylinders conjure up radiant clear candlelight in the room and, as a lantern, invite you to dream at any time.

Caution! Not suitable for children under 36 months.
