Product Description

People need a little peace and quiet! And nothing is better suited to relaxation than MALO. Its 200 steel balls on the magnetic base can be piled up at will, rearranged or shaped into abstract figures. The revised luxury version of the pleasantly calming stress killer comes nonchalantly in a finely tailored suit. Plastic has been completely banished - its spherical, noble appearance differs from the previous version with a pure metal base and the eye-catching decorative edge made of brushed aluminium. And the peace and quiet comes naturally.

Caution! Not suitable for children under 36 months.

- Material: Metal base, magnetic, 200 steel balls, diameter 8 cm
