Product Description

For anyone with a back problem, WINDSOR is the shoehorn of choice - you would think, but no, of course it's not. Its long shaft does provide a pleasantly high degree of comfort, even without bending over deeply. In fact, however, it is the strikingly elegant shape and workmanship that excites. While the sustainable walnut skilfully outshines the orthopaedic benefits, the beautiful feel of the stainless steel cap enchants with its icing on the cake quality. Finally, the small leather loop adds the necessary measure of pragmatism. An indispensable accessory for every wardrobe.

Caution. Not suitable for children under 36 months.
