Product Description

Bookends "Train"

These beautiful bookends in form of a locomotive with a trailer bring order to every bookshelf. This locomotive is a highly detailed replica of a steam train from the age of industrialization in the United States.

The decorative metal sculptures by Hinz & Kunst are elaborately handcrafted with a passion for detail. Every figurine is unique. The sculptures are made from steel and copper, which is bent, cut, welded and brushed to create the desired effect. This extraordinary technique gives their figurines that distinct look.
