Product Description

Brück & Sohn Kunstverlag - Mini Advent calendar "Meissen Frauenkirche"

Meissen also has got a Frauenkirche. It is part of the market ensemble and, well visible from the market, has a carillon made of Meissen porcelain. The Meissen porcelain carillon rings every quarter of an hour and plays religious chorales every 3 hours. In addition to the Meissen Frauenkirche, the historic restaurant "Vincenz Richter" is an excellent place where good food and Meissen wine can be enjoyed.

This motif was one of the first Advent calendars to be produced by Brück & Sohn. The 24 little windows hide little loving Christmas drawings that put the observers back in their childhood.
