Product Description

Christmas folding card "Pillnitz"

The Christmas Folding Card with the Pillnitz Castle and the three wise men from the East, the biblical Christmas story tells us about, is wonderfully suited to be sent into the world with your personal Christmas greetings.

The enchanting Pillnitz Castle was rebuilt in Baroque style by Augustus the Strong in 1720 and used as a pleasure palace and for his glittering feasts. This greeting card shows the water palace located directly on the Elbe, with its oriental roofs and cornices, which were very popular in the Baroque.
