Product Description

STEP Toothbrush Holder, white

The Step toothbrush holder by Umbra is made of sturdy melamine and is practically unbreakable, which makes it particularly suitable for the bathroom. This modern and simple toothbrush holder is suitable for manual and electric toothbrushes and toothpaste tubes.

Step keeps the toothbrushes upright so that they can dry quickly. This toothbrush holder has three separate compartments to keep bathroom accessories separate. Its simple design takes up minimal space (13 x 8 x 10 cm) on the washstand.

The toothbrush holder is part of the popular Step bathroom collection created for Umbra by designer Tom Chung. The collection includes soap dish (335529), soap dispenser (335532), toilet brush (335536) and trash can with lid (335537).
