Item no.: 336072
shipping weight: 0.40 kg
Manufacturer: KED Helmsysteme

Product Description

Companion L, white ash matt

There can be no doubt that the helmet is by far the most important part of a cyclist's equipment. Reason enough to concentrate on one central task: developing and producing optimal head protection systems.

Bicycle helmet with maxSHELL(R) technology, QUICKSTOPP(R) belt length adjustment and locking, FIDLOCK(R) technology, K-FIT adjustment system, removable visor, insect protection net, 20 ventilation openings and tested according to EN 1078.

- K-FIT: With the new K-FIT system, we have developed one of the most modern and lightest adaptation systems with integrated mono-LED. Thanks to both the reflector and the flashing LED, K-FIT combines visibility with precise, finely-gridded adjustment in both rotational directions and reliable locking in the selected position
- MAXSHELL(R): Apart from helmets with Inmold technology and the MIPS system, we also offer helmets using the maxShell(R) process, which are produced exclusively in Germany. The maxShell(R) technology provides an increased elasticity of the bond between the helmet's top shell and its down shell, which has a positive impact on the shock-absorbing properties.
- QUICKSTOPP(R): Our QUICKSTOPP system at the center top of the helmet allows quick length adjustment of the strap and prevents uncontrolled sliding of the strap from one side of the head to the other.
- FIDLOCK(R): The FIDLOCK(R) technology makes it even easier to close the fastening buckle. Thanks to the combination of magnetic force and mechanical lock-in, the FIDLOCK(R) fastening buckle closes almost automatically and can be operated single-handedly. No unintentional pinching of the skin. The buckles are highly reliable, robust and secure.
- Colour: white ash matt
- Size: L (55 cm - 61 cm)
- Weight: 350 g
- Certificated EN 1078
