Product Description

CAPPА 1 double curtain rod 305-457, brushed black

The Umbra Cappa double curtain rod is a modern extendable telescopic curtain rod. The set includes 2 curtain rods, a wall bracket, fastening material and end pieces.

Windows are an essential part of your home and can greatly change the appearance of a room by attaching attractive curtains or drapes. But in order for these to look really good, you need a curtain rod that matches the curtains or curtains you have selected and that adapts to the room decor and is not too dominant.

We introduce the Cappa double curtain rod from Umbra. The modern and at the same time simple design of Cappa subtly underlines your curtains or curtains without distracting from them. The clear, minimalist style and the brushed finish is the dream of every interior designer, as it harmonizes with almost all furnishing styles and colors. The best part is that Cappa doesn't cost the world to create a stylish multilayer look with your curtains.

Resistant, adaptable and stylish. When it comes to curtain rods, quality is key and Cappa is guaranteed not to disappoint. Unlike cheaply made curtain rods that bend and lose their shape over time, Cappa is made of high quality metal and has undergone rigorous quality control.

Cappa's front bar has a diameter of 1.9 cm, the rear bar has a diameter of 3.2 cm. Cappa can be used for a variety of curtains and drapes and has a load capacity of up to 1 kg. The Cappa curtain rod set can be extended from 305 cm to 457 cm and offers you the flexibility to attach your curtains or curtains in multiple layers.

Everything you need to quickly attach Cappa to the wall is included: 2 curtain rods, 4 metal end pieces, 3 adjustable wall brackets, screws, dowels and assembly instructions.
