Product Description

Metal smoke house "Hansel & Gretel", 98 mm

Smoker house made of metal with incense holder for our incense cones size M.

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the burner on a temperature-insensitive surface.

Use a sufficiently large burner for every incense cone size!

While the smokers for our minis (XS) can be smaller than 12 cm, smokers with a size of at least 13 cm are required for the size M. The giants in size XL and XXL should only be brought to smolder in sufficiently large incense figures or special incense burners.

All incense burners (especially the incense holder) should be cleaned regularly. By burning several incense cones, resin and fragrance deposits form, which smell unpleasant and can smoke very heavily when smoldering. You should therefore regularly clean your burner with warm water, soap and a brush.
