Product Description

MIDNIGHT double curtain rod with rounded ends 107-305, black.

Midnight is a decorative, room-darkening window solution and features an innovative curved design that darkens the room by preventing outside light from entering. Leave your curtain or drape panel directly against the wall, wrap the panel around the curved end of the pole and tuck it behind the bracket to prevent outside light from entering. Midnight's curtain rod has a stable diameter of 1.9 cm and is suitable for light to medium-heavy curtains up to max. 10 kg. The double curtain rod is ideal for 2 curtains and is available in different sizes.

This curtain rod is made with a more environmentally friendly coating. This produces 85% less water and solid waste than conventional galvanic coatings.

About Umbra: Umbra is an international design company known for original, modern, cool, functional and affordable products for home and life.
