Product Description

Porcelain figurine elephant small, 7 cm, white

The characteristic features of elephants include the trunk, the tusks and the large ears. In elephants, the upper lip and the nose are formed into a long trunk. There is no bone or cartilage in the entire trunk. It consists exclusively of musculature.

Wagner & Apel is a traditional manufacturer from Thuringia. A great deal of dedication, patience and craftsmanship goes into each model mould. Far away from industrial mass production, each figurine, each animal sculpture and each individual gift item receives the greatest attention. Because it is only by hand that fine porcelain can be transformed into unique favourite pieces.
