Manufacturer: Reutter Miniaturen

Product Description

M.W. Reutter - Chocolatier with lighting - Shop window series 798

"Chocolate is happiness you can eat." With our chocolatier, no chocolate wishes remain unfulfilled. From the preparation of the raw chocolate bean, to the fine chocolates, ready-made cakes and delicious pastries made of chocolate in the display and packed in beautiful boxes, to the hot chocolate with praline tagere for the afternoon. Our new pralines in different shapes, colours and varieties are especially lovingly "prepared" and decorated. A great gift for yourself or a chocolate lover.

Reutter's illuminated miniature shops are a real eye-catcher. The filigree miniatures are set in scene with hidden little lights. The small lights make the porcelain glitter and sparkle. In this way, the loving details are shown to their best advantage and the warm light creates a cosy atmosphere. Currently available for series 797 and series 794.

Our patio shutters are made of stained willow and birch wood with stucco elements and movable glass door. The glass panes are printed with beautiful gold ornaments and protect the small miniatures from dust. The real glass prevents scratching or blinding of the pane. In order to be able to reach the inside at any time, the pane of the shop window can be pushed out towards the top. All patio shutters can be placed or hung up. The practical opening on the back allows you to retrofit LED lighting at any time.

The filigree workmanship and attention to detail give our miniatures their very special Reutter flair. All of our porcelain pieces with gold decoration are hand-painted with 24 carat gold and fired at 800°C. Our miniature works of art inspire people all over the world and often awaken a previously undiscovered passion for collecting.

All our miniatures are handcrafted with dedication and care. Each Reutter miniature is unique and is made personally for you.

The original may differ slightly from the picture. All individual parts are fastened in such a way that they cannot come loose.

Our illuminated miniature shops are equipped with small LED lights. The LED strip is fixed to the ceiling, the cable runs in the door frame and is not visibly tucked away under the shelf. The light can be switched on and off by a slider. From the front, you can easily reach the switch through the open door, and there is a slot in the back wall for changing the battery.

2x AA / 1.5V batteries are included.

Our miniature articles are not suitable for children under 14 years.

- Product dimensions: 24 x 9.5 x 21.7 cm
- Weight: 1100 g
- 2x AA / 1.5V batteries are included in delivery
