Product Description

Mini Advent Calendar Gera

Gera has historical significance as the capital of the younger line of the Principality of Reuss. With the onset of industrialisation in the mid-19th century, the city experienced great economic and population growth. Gera was one of the richest cities in Germany during the heyday of the fabric and cloth industry. More than 100 town villas, some of them very important, and magnificent buildings from the Wilhelminian period bear witness today to the splendour and wealth of bygone times.

- Contents: Folding card with envelope
- Format: 11,5 x 17,0 cm
