Product Description

According to a non-confirmed poll between oranges, bananas and apples, this stunning stainless steel basket is the self-chosen place where fruits of the world prefer to hang out. Well, who would doubt it? With enough space for a week's rations, limes, figs and kiwis can be rocked around on the hand-flattering linen carrying strap. Rumours are already circulating that sweets, vegetables and nuts have also been queuing up for some time. We will not deny this.
Caution! Not suitable for children under 36 months.
