Product Description

It undoubtedly takes a well-trained lung and a fair amount of craftsmanship to give AMARA this wonderfully organic design with a keen sense of form. A hefty 4kg of glass, mouth-blown - no question, each of these sculptures is a unique one-off. With the crisp, fresh look of an oversized drop of water, the vase features a narrowed opening that gives even single flowers or branches a firm grip. Psst, do you hear it too? It just went "blubb!" again.

Caution. Not suitable for children under 36 months.
