Product Description

"People are like angels with one wing - if they embrace, they can fly" says an old saying. The BOW candle holder picks up on this idea with two arches that can be extended arch by arch to form a circle full of candlelight thanks to invisible magnets. First two, then three, for Advent four, and finally an extended family...

INNOVATIVE: Thanks to the magnet technology, BOW can be arranged in a chain along the entire length of the table.

Caution. Not suitable for children under 36 months.
