Product Description

A piece of Hamburg for the whole world

Ahoy, to all sailors and landlubbers, to all water fans and cruisers. We at PHILIPPI come from Hamburg and this simple yet extraordinary stool is a special homage to our city - "the gateway to the world". Our HAMBURGER HOCKER is modelled on a bollard where ships are moored in the harbour. As in the ports of the world or at the landing stages in our Hanseatic city, the HAMBURGER HOCKER stands for many things: it is a sign of departure, new beginnings, curiosity, as well as a symbol for arriving, staying, pausing. It rests in itself and is as strong as a rock in the surf. Or to put it simply: where there is a HAMBURGER HOCKER, there is always a piece of home!
