Product Description

Wall Clock "Moon Dome", Glass, Luminous, Ø 35 cm

The NeXtime "Moon Dome" is a wall clock with dome shaped glass. The clock is made with glow-in-the-dark technology which ensures that the clock glows when it gets dark (average 4 hours). The clock charges itself during the day with natural and artificial light. This clock shows an enchanting image of the moon. Because this clock has a silent movement, it is also very suitable for the bedroom. The clock runs on 1 AA battery (not included).

- Material: Glass
- Color: Luminous
- Clock type: Wall clock
- Size: Ø 35 cm
- Battery type: 1x AA battery, not included
- Movement: Silent movement, no ticking sound
