Product Description

Incense burner made of nickel-plated brass, height adjustable

This brass incense burner is nickel-plated, adjustable in height and equipped with two sieves. It is suitable for incense cones of size XL / XXL and frankincense peas.

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the burner on a temperature-insensitive surface.

All incense burners (especially the incense holder) should be cleaned regularly. By burning several incense cones, resin and fragrance deposits form, which smell unpleasant and can smoke very heavily when smoldering. You should therefore regularly clean your burner with warm water, soap and a brush.

- Height: 10.5 cm
- Diameter: approx. 7.5 cm
- Color: nickel
- Material: brass
