Product Description

Essentially, the term table butler stands for carriers of everything that has anything remotely to do with spices. So not only pepper and salt shakers - also ketchup & mustard, vinegar & oil, dressings, chutneys, dips and last but not least the huge range of Asian sauces. But that doesn't even begin to do justice to A TAVOLA's even more versatile capabilities. Because the multi-talent just as carefully passes jam jars, tea bags or sweeteners from table to table. And thanks to the pretty carrying strap, it works just as well in restaurants as it does in your own four kitchen walls. You have to earn the title of table butler first. Mission accomplished with asterisks.
