### Product Description

**GUARANTEED NOT TO BE MADE FROM PAPER** One bad habit that has crept into modern civilised societies, where everything has to be done quickly, quickly, quickly in the morning, is the loveless cardboard milk carton at the breakfast table. There's no question that the 3-piece BUTLER milk and sugar set is a decisive counter to this. If nothing else, it's made of highly polished stainless steel, food-safe and dishwasher-safe. The same applies to the sugar. Plus a portion spoon. Nothing else comes into the bag. This is how lifestyle works. **IDEAL FOR** Milk & sugar - there's nothing else in the bag **DESIGN FOR ENJOYERS** Indicated paper bag and milk carton made of highly polished stainless steel **SUPER SWEET** The 3-piece set is equipped with an additional spoon for portioning the sugar
