### Product Description

ART IS WHEN IT'S CALLED INFINITY This is pure minimalism. Less is not possible. And certainly no more. As is so often the case, the small difference lies in the detail. This high-quality frame has rounded corners on the inside and does not, as is often the case, simply consist of mouldings that have been pushed together. The big difference lies in the passe-partout. The rectangle within the square is what makes INFINITY so attractive. Vertical or horizontal, it's up to you! Deep black and matt powder-coated, a strong contrast that is particularly suitable for postcards or typography from the arts and crafts sector. THE BIG DIFFERENCE the passe-partout. The rectangle within the square is what makes INFINITY so appealing. Vertical or horizontal, it's up to you! KONTRAST deep black, powder-coated, matt - strong appearance KULTURGUT particularly suitable for postcards or typography from the arts and crafts sector
