353017 - Boule bottle opener

from **26,20 EUR**

Item no.: 374304
shipping weight: 0.10 kg
Manufacturer: Philippi Design

Product Description

PLEASE ROLL OVER THE OPENER? What in God's name is that? And how does it work? The first thing to do after the guests have arrived: Let everyone present guess. The looks of astonishment are all the greater when BOULE removes the first crown cap from the bottle with a casual hand movement. While the beech wood nestles comfortably in the hand, the playful bottle opener frees soft drinks and beer from the cap with surprisingly little effort. From now on, it's time to roll over at the table! FIRST THOUGHT If it really is a bottle opener, then it looks damn unusual and outrageously good. SECOND THOUGHT The beech wood nestles comfortably in the hand, the stainless steel ring frees the bottle cap with surprisingly little effort and then the innovative round thing rolls playfully back and forth on the table. THIRD THOUGHT I want that!

Details- Material: beech wood, stainless steel Technical data- Weight: 135 g- Length: 5 cm- Width: 5 cm- Height: 5 cm
