Product Description

ROMANTICALLY DESIGNED MULTITALENT Romanticism in pinstripes, tailor-made for extra-long nights: The lanterns develop their special charm when they are fitted with several block candles at different heights. Made by hand, it is the irregular spacing of the wire struts that gives NOBO its graceful charm. If required, they can also be used as a wastepaper basket, for storing wool or for magazines. Suitable for indoor use, e.g. on the stairs, in the living area, in the hallway, for a cosy blanket, for towels in the guest bathroom.
