from **25,85 EUR**

Item no.: 374615
shipping weight: 0.40 kg
Manufacturer: dantoy

Product Description

A beautiful bucket set that includes a sieve, a boat and a shovel. This set offers plenty of opportunity for playing and exploring in nature with sand and water, stimulating the senses. The boat and sand set from Blue Marine Toys, like all the other toys in this series, is made from recycled plastic from marine equipment such as nets and ropes. These residual materials are processed into toys in the Danish town of Hobro instead of ending up in the oceans. The Blue Marine series invites children to play with sand and water in the great outdoors - in a natural environment that we must take care of and protect. With Blue Marine Toys, dantoy is setting a sustainable, preventative example for precisely this. The content of this series was inspired by the maritime world and the manufacturing process of the Blue Marine toy itself. This applies to the collection and transport of the used material as well as to the sorting, processing, recycling and production. The boat and sand set is a dantoy toy made in Denmark from recycled waste material from the shipping industry. This set consists of 5 pieces in pretty blue marine colours, which may vary slightly due to production. The recommended age group for this product is 2+ years.

Details- Net packaging: This toy is packaged in a net.- Age group 2+ years- Dishwasher: This toy is dishwasher-safe.- Sustainable toy: Produced in Denmark - Contains no harmful substances - Promotes skills - Stimulates the imagination: Recommended for developing imagination.
