Product Description

Weather Station "Aster", Polyresin, Multicolor, Ø 26 cm

The NeXtime "Aster" is a garden clock made of polyresin that can be used outside. The use of extra rubber rings to protect the water from reaching the delicate parts of the clock is making this clock special and weatherproof. The clock is robust and classy because of the stone look. It will fit every garden perfectly and blend in easily. With its size of 26 cm, it can fit everywhere. If you want to be up to date in your garden, this is the clock for you! Time, temperature and humidity in one device. The dial is white and has a big roman index for the hour indication. Because of the black hands, the clock and the meters are easy to read. The clock runs on 1x AA battery (not included).

- Material: Polyresin
