## BMT SAND SET 59 PARTS

from **141,23 EUR**

Item no.: 374638  
shipping weight: 2.00 kg  
Manufacturer: dantoy

### Product Description

Large, durable sandpit made from recycled waste material from the fishing industry. A maritime set that contains everything you need to play with water and sand outdoors, from ships and lorries to shovels, moulds and buckets. A perfect set for facilities with lots of children playing, which strengthens children's fine motor skills and imagination, among other things. The sand set from Blue Marine Toys is a toy made from recycled plastic from marine equipment such as nets and ropes. These residual materials are processed into toys in the Danish town of Hobro instead of ending up in the oceans. The Blue Marine series invites children to play with sand and water in the great outdoors - in a natural environment that we must take care of and protect. With Blue Marine Toys, dantoy is setting a sustainable, preventative example for precisely this. The content of this series was inspired by the maritime world and the manufacturing process of the Blue Marine toy itself. This applies to the collection and transport of the used material as well as to the sorting, processing, recycling and production. The sand set is a dantoy toy produced in Denmark from recycled waste material from the shipping industry. The set consists of 59 pieces in pretty blue navy colours, which may vary slightly due to the production process. The sand set from dantoy's maritime universe, Blue Marine Toys, consists of many elements that provide ample opportunity for imaginative role play and exploration in the great outdoors with sand and water.

Details- From 2 years- Sustainable toy made from recycled materials from the fishing sector - Produced in Denmark- Contains no harmful substances- Machine washable
