## Product Description

These pretty little boats are ideal for a boat trip outside - wherever the journey takes you. The boat set is ideal for playing alone or together with others and encourages imagination and role play. The boat set from Blue Marine Toys, like all the other toys in this series, is made from recycled plastic from maritime equipment such as nets, trawls and ropes. These leftover materials are processed into toys in the Danish town of Hobro as a preventative measure to reduce the amount of maritime waste in the oceans. The Blue Marine series invites you to play with sand and water in the great outdoors - in a natural environment that we must take special care of and protect. This boat set is a Danish-made toy from dantoy, made from recycled material left over from maritime use. The set consists of 4 boats in pretty blue-navy colours, which may vary slightly depending on the material. The boat set from dantoy's maritime universe, Blue Marine Toys, offers plenty of opportunities for sensory stimulating play and exploration in nature with sand and water, where boat trips can be undertaken.
