from **26,06 EUR**

Item no.: 374612
shipping weight: 0.40 kg
Manufacturer: dantoy

Product Description

A beautiful bucket set that includes a sieve, a boat and a shovel. This set offers plenty of opportunity for playing and exploring in nature with sand and water, stimulating the senses. The bucket set from Blue Marine Toys, like all the other toys in this series, is made from recycled plastic from marine equipment such as nets and ropes. These residual materials are processed into toys in the Danish town of Hobro instead of ending up in the oceans. The Blue Marine series invites children to play with sand and water in the great outdoors - in a natural environment that we must take care of and protect. With Blue Marine Toys, dantoy is setting a sustainable, preventative example for precisely this. The content of this series was inspired by the maritime world and the manufacturing process of the Blue Marine toy itself. This applies to the collection and transport of the used material as well as to the sorting, processing, recycling and production. This bucket set is a dantoy toy made in Denmark from recycled waste material from maritime use. The set consists of 6 pieces in the pretty Blue Marine colours, which may vary slightly due to the production process. The bucket set from Blue Marine Toys, the maritime universe of dantoy, consists of several elements that provide ample opportunity for sensory play and exploration in the great outdoors with sand and water.

Details- From 2 years- 6 pieces- Sustainable toy made from recycled materials from the fishing sector - Produced in Denmark- Contains no harmful substances- Machine washable Encouragement- Stimulates the imagination- Develops fine motor skills- Hand-eye coordination
